

Economische ramingen per 7 Sept 2026

ABN AMRO Research · 2026-09-07 · English original

Group Economics writes regularly about developments in the macro economy. Here are our latest forecasts on interest rate and currency developments, energy prices and the economic trend in developed and emerging markets.

Want to know more? Read more about our cookies, similar techniques and your privacy on our website and in the app in the cookiestatement.

Functional cookies are necessary required cookies. They ensure that our website works properly and prevent you for example from having to repeatedly enter your login details. Further information can be found in our Cookie statement.

We use analytical cookies to record data for internal statistical and analytical purposes. These cookies allow us, for example, to establish the number of visitors to our website, to optimise our content and to measure and improve overall quality on a continuous basis. With the use of analytical cookies and similar techniques we understand how visitors interact with websites by reporting information anonymously. Further information can be found in our Cookie statement.

Our website may also place cookies that allow us to show you offers and information that may be of interest to you. With personal cookies we'd like to show you information on our websites, apps and on the websites of third parties that would be useful to you. That's why we try our best to find out what piques your interest and what doesn't. Based on the pages you visit on our website, we'll show you different information than we do for other visitors. You can find a complete list of all personal cookies used in our Cookie statement.
